* -- Flu vaccine may be given starting at 6 months, then annually. If the 1st dose is given before 8 years of age, then a booster is needed at least 1 month later.

^ -- A second dose of HPV is required 6 months after the first. This can be delivered at a nurse-only visit. If the HPV series is initiated on or after age 15, three doses are required. The second dose should be given 1-2 months after the first dose, and the third dose should be given 6 months after the first dose.

^^ -- For patients that Men B is recommended for, a second dose is required 1 month after the first. This can be delivered at a nurse-only visit.
