****WEBINAR LIVE****

THURSDAY, JULY 15, 2021 6:00PM - 9:00PM

HOT TOPICS IN INFECTION CONTROL - AND SOME COOL TIPS

Learning Objectives:

- Recognize and manage bloodborne, contact, droplet and airborne diseases
- Recognize and respond to all types of disease exposures with optimal effectiveness
- Minimize the risk of transmitting diseases by optimizing safety strategies

Course Description

Update your knowledge on the most important issues in clinical safety. Are you clear on how COVID-19 fundamentally changed safety standards in Dentistry? This class outlines the essential components of your infection control program, emphasizing respiratory protection, reviewing CDC Guidelines and State regulations for Infection Control. Updates include strategies against future safety challenges such as other aerosol transmitted diseases (ATDs) and evolving / resistant pathogens.

REGISTRATION

Fill out the **Required Fields**, scan and email to endospecialty@yahoo.com. **A link for the webinar will be emailed before the event.**

CE Certificates will be issued to those who attend the lecture in its entirety and after submission of the Evaluation Form.
